# BRASS NUMBERS INSTALL INSTRUCTIONS

### **SUPPLIES NEEDED:**

### **Brass Numbers**

available from www.imperialmailboxsystems.com

### **Screwdrivers**

flathead & phillips

## **Installing Brass Numbers:**

- Remove number plate from mailbox with a phillips screwdriver. Remove old numbers with flathead screwdriver and scrape old glue off surface.
- Ensure that surface is clean and dry.
- 3 Lay numbers out to ensure even spacing then mark edges with pencil.
- 4 Remove the paper backing from brass number and then carefully place according to your pencil marks.
- 5 Attach numbers to number plate on one side at a time then attach numbers to the other side.
- 6 Attach number plate to mailbox. Please ensure screws are properly tightened.
